## Portrait Deutsche Bahn

////////////////////////////////////

### **Portrait:**

Deutsche Bahn AG was founded in 1994 through the merging of Deutsche Bundesbahn with Deutsche Reichsbahn. It is now Europe's leading railway and No. 2 in the international forwarding and logistics sector, making it one of the largest transport undertakings in the world. 230,000 employees in 150 countries, 190,000 of them in Germany, act day in, day out, to ensure mobility and logistics for their customers as well as to effectively control and operate the associated rail, land-transport and ocean and air-freight networks. In the 2006 business year, DB AG posted sales revenues of EUR 30.1 billion and operating results (EBIT), adjusted for special items, of EUR 2.1 billion.
